Contracts signed for €9 million THRIVE Connolly Barracks Reimagined project

Official contracts were signed in September for the €9 million THRIVE Connolly Barracks Reimagined project, marking a major milestone in the transformation of the historic Connolly Barracks in Longford Town. Bretland Construction was appointed to deliver the ambitious redevelopment, with site set-up commencing ahead of construction works.

Longford County Council Cathaoirleach Cllr Gerry Hagan, Chief Executive of Longford County Council, Samantha Healy and members of the THRIVE project team joined representatives of Bretland Construction at Longford County Council to formally sign the contract documents.

The signing of contracts represents the final step before the commencement of construction works and marks the beginning of the next phase in the delivery of one of the most significant heritage regeneration projects undertaken in Longford in recent years.

New Starter Home Scheme from Longford County Council offers discounts of up to €95,000

Longford County Council's Starter Home Purchase Scheme offers 25 high-quality A-rated family homes at Cúirt an Easpaig, Ballinalee Road, Longford Town. The scheme is designed to help bridge the gap between household incomes and house prices by making homes available below market value. Eligible purchasers may be able to access support of up to €95,000 towards the purchase of their new home.

The Starter Home Purchase Scheme can also be combined with the Help to Buy Scheme. Eligible first-time buyers may also qualify for up to €30,000 towards

Highlights

their deposit, making home ownership more affordable.

To support prospective purchasers, Longford County Council launched a new digital brochure in September showcasing the homes, development layout, eligibility criteria, and benefits of living in Longford. The Housing Team from Longford County Council will also attend the PTSB Ideal Home Show at the RDS, Dublin, from 16–18 October.

Longford County Council welcomes Gum Litter Taskforce Roadshow

The Gum Litter Taskforce (GLT), in partnership with Longford County Council, took to the streets of Longford in September to encourage people to bin their gum, helping to keep communities clean while avoiding a €250 litter fine. Now in its seventh cycle, the GLT campaign is a successful collaboration between industry, government and local authorities and is funded by Mars Wrigley. Longford County Council has been a proud supporter of the initiative since its launch in 2007.

The GLT visit to Longford coincides with research from the Gum Litter Taskforce which reveals that littering is now viewed as socially unacceptable by more than four in five (82%) young people. However, almost one in four young people still do not regard chewing gum as litter, highlighting the need for continued education and awareness. Encouragingly, more

Highlights

than nine in ten people (92%) now report properly disposing of their chewing gum – the highest level recorded since the campaign began in 2007.

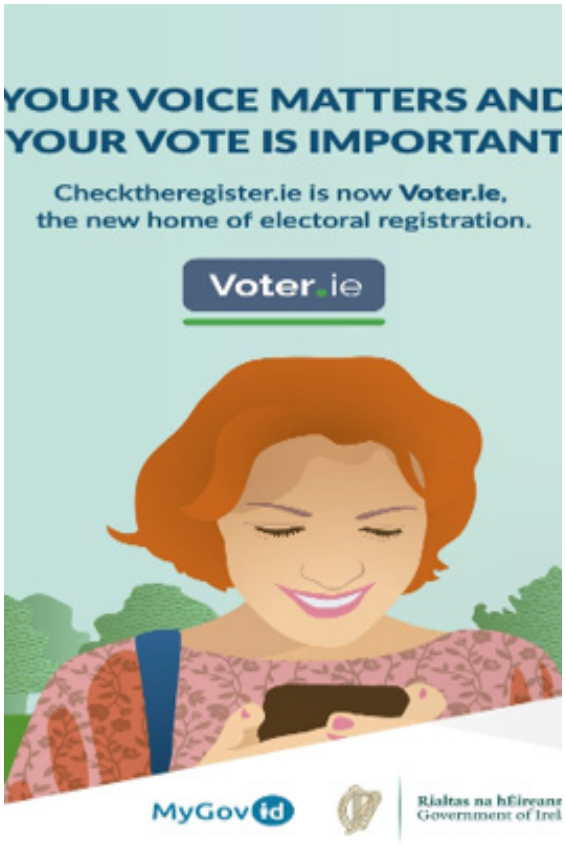
Special thanks was extended to young people from Comhairle na nÓg, students from St. Mel's College, Meán Scoil Mhuire, Longford Town and Templemichael College who took part in the launch of the Gum Litter Taskforce campaign locally.

Corporate Services

Corporate Management Supports and Customer Services

The Customer Services email helpdesk received and processed 641 emails during August and September. A total of 762 calls were also received to the customer services phone line.

Register of Electors



The phased migration to the new voter.ie portal is almost complete, with the final wave due to occur in the first week of October. This wave will see the remaining counties of Cork, Offaly, Meath, Monaghan and Tipperary move to the portal. This will bring all Local Authorities on stream to complete the move to one central election registration system. This final act is an important step in achieving a central aim of the Electoral Reform Act 2022, and will allow for a more streamlined approach to running the Register and facilitate greater accuracy overall.

The Franchise Office continues to work on ensuring the Longford Register of Electors is as accurate as possible. They are currently processing responses to a large-scale mailing issued this Summer, asking electors to update their entry on the Register with missing data. Adding unique identifiers such as PPSN's and Eircode's to your electoral profile greatly improves the quality of the Register. They continue to encourage electors who have not yet returned their forms or updated their details online to now do so. Forms can be returned by Freepost to the Franchise Office or details can be updated on the new voter.ie website by scanning the QR code below.

Corporate Services

Official Languages Act

Work continues to meet the obligations under Section 10A of the Official Languages Act (Amendment) 2021. Among the obligations under the Act, the Local Authority is obliged to ensure that:

- at least 20% of advertising is to be placed in Irish, which equates to 20% budget spend.
- 5% of the advertising budget is to be spent on advertising in Irish language media.
- Documents setting out public policy proposals, audited accounts or financial statements, annual reports and strategy statements are published simultaneously in Irish and English.
- All signage placed by a public body or on its behalf must be in Irish or bilingual, in accordance with the regulations.

To date in 2026, a total of 17.21% of advertisements placed comply with the Acht Teanga.

Freedom of Information/Access to Information on the Environment/ Office of the Ombudsman

	Year to Date
No. of Freedom of Information (FOI) requests received	76
No. of Access to Information on the Environment (AIE) requests received	12
No. of Office of the Ombudsman complaints received	5

	Granard Municipal District Meeting
29 September	Ballymahon Municipal District Committee Meeting
	Ballymahon Municipal District Meeting

Corporate Services

Communications

August and September 2026 saw a number of positive news events in Longford County Council including the inaugural County Longford Arts Recognition Awards, Culture Night, National Public Libraries Open Day and the launch of a new digital brochure for the Starter Home Scheme at Cúirt an Easpaig, Ballinalee Road, Longford Town. Other news events during this period included the launch of the Gum Litter Taskforce and details of the Home of Halloween and Samhain in the Heartlands programme of events.

All of these events require the assistance and support of the Communications section including pre and post publicity. Work includes event planning and management, invites, press releases, radio interviews, national and local coverage, media relations, communications strategy and advice, media queries from local and national press, radio advertising, digital communications strategy, management of all social media platforms, video content creation, paid social media advertising campaigns, content management of Longford County Council website and dealing with website content requests from all sections of the county council.

Press Releases

A total of 24 press releases were issued in August and September 2026 on a range of issues, representative of all council sections as referenced above.

Media Enquiries

A total of 23 media queries were received and processed by the Communications Section in August and September 2026 from both local and national print, online and broadcast media with common themes including illegal dumping and other environmental issues, Housing and Roads queries.

Communications Working Group

The September meeting of the Communications Working Group had good attendance levels with representatives from various sections. The Communications Working Group meets on the second Tuesday of each month to manage communication requests from various sections and to ensure upcoming events/launches, press releases, video content creation and social media requests are noted in the comms diary for the month ahead. The meeting is also used as a broadcast channel for internal communication purposes.

Communications Strategy

The new five-year Communications Strategy in conjunction with RPS Consulting Engineers is currently at layout and design stage and will be presented to management for feedback in due course.

LCC Website

The Communications and IT section are progressing the development of a new county council website. The Communications section and IT are currently working with the newly appointed website developer

Corporate Services

on the initial phase of this project and detailed design workshops are expected to get underway with staff from various sections. It is expected that it will be 2027 before this extensive project is fully completed.

LGMA Communications Conference

Members of the LCC Communications Team attended the LGMA Communications Conference in the Radisson Blu Hotel, Athlone in September. The Communications Officer featured as one of the guest speakers at this year's event. Mairead O' Shea joined the panel discussion 'Inside the Newsroom: What's the Story: What Journalists actually want from you'. This event brought together communications professionals from local authorities across Ireland. This is a valuable platform for city and county council teams to share insights, explore ways to strengthen public engagement, and build trust through effective communication.

Social Media Stats

Key Social Media Statistics

The following statistics cover the period from 1 August to 30 September 2026 and are compared against the same period from 1 August to 30 September 2025.

- 372 posts published across social platforms, representing a **11.4% decrease** compared to 420 posts.
- 753,509 total impressions, an **increase of 5.9%** on the 711,389 impressions recorded in the previous period.
- 515 post shares, reflecting a **38% decrease** compared to 830 shares in the previous period.
- 4,129 post reactions and likes, **an increase of 37.1%** compared to 3,011.
- **Followers increased by 20%** (19,764) compared to the 16,468 in the previous period.
- Video views **increased by 76.2%**, rising to 25,584 compared with 14,522 in the previous period.

Corporate Services

The growth in our social media performance can be largely attributed to the increased use of video content across Facebook and Instagram. Posts from the Love Life, Love Longford campaign generated strong reach and engagement. Other top-performing content included the launch of the Home of Halloween event, the appointment of Samantha Healy as Chief Executive, the contract signing for the Connolly Barracks Thrive Transformation Project, and retirement posts recognising Barbara Heslin.

Website

The following statistics cover the period from 1 August to 30 September 2026 and are compared against the same period from 1 August to 30 September 2025.

Longfordcoco.ie recorded 25,097 visits, representing a decrease of 639 visits (2.5%) compared to this time last year.

The most popular sections were:

- Planning (10,716)
- Housing (6,991)
- Roads (5,314)
- News (4,554)
- Environment (4,196)

During this period, the following view counts were recorded across other council websites:

- Longford Libraries (3,895)
- LongfordSports (1,328)

Corporate Services

Data Protection & Information Compliance Update

Six data breaches recorded to date in 2026; all managed appropriately, with any notifiable breaches reported to the Data Protection Commission within statutory timelines. Seven Data Subject Access Requests completed, with 100% compliance with response deadlines. A total of 14 compliance reviews were completed, including seven DPIAs and seven Data Sharing/ Processing Agreements.

Data protection awareness strengthened through organisation-wide communications and training delivered to 58 new staff and summer students. Staff engagement continues to grow, with 310 advisory queries received since January, demonstrating a strong culture of seeking guidance before processing personal data.

Continued representation on national and regional data protection forums, contributing to sector-wide governance and compliance initiatives.

Data protection compliance remains robust, with strong levels of staff engagement, effective governance controls, and ongoing promotion of good information management practices across the organisation.

Health & Safety

Health & Safety Inspections

A total of nine Safety Inspections were completed by the Health and Safety section and the Management Team.

Health and Safety Training

Ongoing risk assessment briefing sessions are held with each section of the council.

A total of nine new employee Health & Safety inductions were completed. Summer students completed a Health & Safety induction in July as part of their eight-week work experience programme.

Internal Health & Safety Audits

Health and Safety Internal Audits were completed in the following sections.

- Housing
- Fire Services
- Corporate
- HR/Learning & Development

Risk Assessment review programme

A revision of several risk assessments has commenced as part of a five-year planned cycle. Revised and updated risk assessments are issued and communicated to the relevant employees and included in the monthly Health & Safety report to all employees.

Temporary Traffic Management (TTM) Audit & Inspection

An audit and inspection of temporary traffic management was completed within the Roads Design Section and Active travel on 17 September 2026.

Local Enterprise Office

AMB 2026 Trade Fair

A delegation led by Local Enterprise Office Longford, representing the Midlands Regional Engenuity Group and the Enterprise Europe Network (EEN), attended AMB 2026, one of the world's leading trade fairs for the metalworking industry, held at Messe Stuttgart, Germany, this week.

The trade mission provided an opportunity for Midlands-based engineering and manufacturing businesses to explore emerging technologies, identify new suppliers and partners, gain insights into international market trends, and engage with innovative solutions designed to improve productivity, efficiency and competitiveness.

Pictured (L-R): Eoin Tynan (LEO Longford), John Logan (JHL, Westmeath), Francis Killian (Killian Engineering, Longford), Brian Smyth (Smyth Automation & Factory Services, Longford), Gearóid Sheridan (LEO Westmeath), Dean Carroll (LEO Westmeath) John McDermott (Midland Engineering Profiles, Longford) and Katrin Wegele (International Business Consultant EEN Baden-Württemberg)

National Ploughing Championships 2026

Tolvita Limited, supported by Local Enterprise Office Longford, represented the county at this month's National Ploughing Championships in Screggan, County Offaly, from 15- 17 September. The company specialises in roofing and cladding solutions, supplying and installing high-quality steel roofing, façade and waterproofing systems for residential and commercial projects across Ireland.

The Local Enterprise Village, an initiative of the Local Enterprise Offices, featured more than 30 businesses from across the country and attracted significant footfall over the three-day event.

Tolvita's participation highlights the strength of enterprise in County Longford and the growing opportunities available to local businesses that are innovating, expanding and reaching new markets.

Training & Mentoring

A total of 164 businesses availed of training and mentoring over the two months ranging from Starting Your Own Food Business, Digital Marketing, AI, Finance, Craft Specific Training and one-to-one sessions addressing a wide range of topics specific to their businesses.

Information Systems

Climate Action Update

1. The section continues to progress and implement several paperless projects which will have an instant positive impact on the organisation's carbon footprint.
2. ePMDS software is used by existing and new employees, saving paper, time, and travel.
3. The Blended Working App continues to be used as new employees commence and existing employees renew applications, the app saves on multiple page paper applications and related processing and catches key environmental metrics for blended working.
4. A new platform is being rolled out to digitise business process.

IT Infrastructure and Digital Projects works completed

- ServiceDesk stats for August and September 2026: 1,296 tickets
- Continuation of the digitisation of forms with commencement of project in Emergency Services, Sports Partnership and Civil Defence. Ongoing support for the digitisation of forms for Community Grant applications.
- Online payment system implemented on My Council Services and currently in testing.
- Traffic fines system implemented and being tested with staff and integrated with the financial management system.
- Procurement completed for library funding application and implementation process commenced.
- An Actions Register application has been developed with the Health & Safety section, providing a structured way to assign, track, monitor and complete actions arising from inspections, audits, incidents, and other Health & Safety activities. Legacy data migrated into the new application and 60 staff have attended user training sessions.
- Tender process completed and awarding of contract for the new website CMS in progress in conjunction with the Communications Section of Corporate Services.
- Review of telephone lines and mobile contracts completed, and transfer process started with Uisce Eireann.
- Upgrade of iPlan for new P&D Act which came into force on 30 September as well as new templates implemented.
- FMS upgrades - Finance continuing to test new FMS customisations as part of Agresso cloud project upgrade.
- Procurement processes completed for licence renewals and software purchases.

Information Systems

Information Security projects

- Mandatory all staff in person Cyber Security Awareness Training
- Business Access Register review
- Preparation for upcoming NIS2 regulations
- Ongoing work on implementation of CyFUN Framework

Broadband & STEAM (science, technology, engineering, arts and mathematics) Initiatives

National Broadband Plan – National Broadband Ireland (NBI)

NBI rollout continues to show strong progress in Longford, with all 9,099 premises now passed and ready to connect. To date, 3,846 premises have connected, representing a 42% take-up rate.

Broadband Connection Points (BCP)

103 clients have been connected to Longford's BCPs during August.

Longford's Microsoft DreamSpace 2026/2027

Calling all Longford Primary schools!

Launched in September, registration is now underway for the Microsoft Dream Space Showcase 2026/27.

Through the programme, young people across the county have the opportunity to build digital skills, grow their confidence and spark their curiosity through hands-on STEM learning.

Now entering its fifth year, the initiative sees primary schools take part in a 10-week Microsoft Dream Space programme, delivered online in the classroom with support from the Dream Space team and the LCC STEM Engagement Officer, Siobhan Grealy.

FIRST LEGO League season 2026-2027

Longford County Council welcomed TUS on the 21 September to launch the new LEGO season and support post primary teachers as they bring the programme into their classrooms this school year. The session introduced the new Teacher Guide and highlighted the latest updates designed to enhance the experience for both teachers and students.

Connected Home, Connected Life: Longford

Technology Enabling Independent Living

A working group is now progressing the Connected Home, Connected Life initiative, exploring how assistive technology can make everyday living safer, easier and more independent. The next phase will involve developing pilot projects and capturing testimonials to demonstrate the real-life benefits for participants.

Information Systems

Geographic Information Systems (GIS) works completed

- Developed a Fire Service mobile application to provide field access to fire hydrant locations and associated information.
- Published the Planning Architectural Conservation Areas (ACA) dataset as Open Data, improving data accessibility and supporting transparency initiatives.
- Updated the ESB network dataset within the GIS mapping application to ensure current infrastructure information is available to users.
- Developed a Housing Needs Assessment dashboard to support analysis, reporting, and informed decision-making.
- Processed and integrated Gas Networks Ireland digital pipeline data into the GIS mapping application, enhancing utility infrastructure mapping capabilities.
- Created a Local Link Route GIS dataset and incorporated it into the GIS mapping application to improve public transport information and spatial analysis.
- Continued to provide GIS support and technical assistance across business areas, including data management, map production, application development, and spatial analysis.

Roads

National Roads

The N4 Mullingar to Longford (Roosky) Scheme is currently progressing well.

Ground investigation works, topographical surveys and environmental surveys along the extent of the N4 corridor continued through the months of August and September.

Meetings with landowners are ongoing.

Public Information Events for the scheme are taking place between 28–30 September in both Longford and Westmeath.

Longford County Council, in partnership with Transport Infrastructure Ireland (TII), is progressing the N55 Granard Bypass Scheme to help reduce congestion, improve road safety, and enhance traffic flow through Granard.

The project is currently at the Options Selection stage, with surveys and assessments underway to identify the most suitable route options.

Public consultation will take place as the project develops, giving local communities and stakeholders an opportunity to have their say.

National Road Pavement Schemes

Pavement Schemes on the N63 at Gowlan, on the N55 at Rathmore and on the N4 at Tomisky were all completed in August and September.

The Gowlan Scheme involved pavement renewal of 1.3km of National Road and ancillary works at a cost of €1.8 million.

The N55 at Rathmore involved 600m of pavement renewal at an approximate cost of €600,000.

An Emergency Pavement Scheme was carried out at Tomisky involving surfacing of the roundabout and approach roads at a cost of €300,000 approximately.

Municipal District Works

Road Maintenance Works continued in each Municipal District in August/ September. These works include footpath repairs, drainage, pothole repairs etc.

Restoration Improvement and Restoration Maintenance Works on Regional and Local Roads are well underway in each of the Municipal Districts and almost nearing completion.

Works on Climate Adaption Schemes, Community Involvement Schemes,

Roads

Local Improvement schemes etc are ongoing.

Bridge Rehabilitation Works have been progressed at Dooroc Bridge, Killeter Bridge and Monascallaghan Bridge in September. Rehabilitation works includes devegetation, repairs to masonry arch structures, repairs to bridge abutments, reconstruction of spandrel and parapet walls. Rock armour is placed upstream and downstream to reduce erosion of stream banks.

Bridge reconstruction works are ongoing at Kilshruley Bridge. The road has been closed to facilitate the installation of a new box culvert.

Phase 2 of the National Speed Limit review involves a review of existing speed limits in Urban and Built-Up Areas with a view to identifying areas where a reduced speed limit of 30km/hr may be more appropriate with due regard to the procedures and criteria set out in the Guidelines for Setting and Managing Speed Limits in Ireland.

Draft Road Traffic Special Speed Limit Bye-laws of 2026 are currently out for Public Consultation. The closing date for submissions is 9 October.

Road Safety

Road Safety Summer Camp Programme

The Road Safety Team continued its community engagement programme during the summer period through visits to a number of summer camps in national schools across County Longford. The initiative provided children with the opportunity to learn key road safety messages in an engaging and interactive environment.

The programme covered a range of important topics, including safe walking habits, cycling safety and the importance of wearing a helmet, seatbelt safety, safe road crossing techniques, and the need to remain alert and aware around traffic.

By promoting road safety awareness at an early age, the programme helps equip children with the knowledge and skills required to become safer and more confident road users, both now and in the future.

Roads

Road Safety GAA Campaign

As part of Longford County Council's Road Safety Campaign, delivered in partnership with Longford GAA/LGFA and An Garda Síochána, a road safety competition was organised to promote safer road user behaviour among 18 to 35-year-olds, the age group most at risk of involvement in road traffic collisions. Congratulations to Fr. Manning Gaels, who were announced as the winners of the competition and received a €300 gift voucher in recognition of their efforts. The campaign, launched at Glennon Brothers Pearse Park, centred on the message: "Be a team player. Think road safety. A mistake on the field could cost the game; a mistake on the road could cost you your life." To reinforce this important message, road safety signage was erected at a number of GAA grounds across the county, highlighting key road safety behaviours and helping to raise awareness among players, supporters and the wider community.

Forward Planning and Enforcement

General

As part of the ongoing review by the Office of the Planning Regulator a Draft Report was produced and provided to the Local Authority. This Draft Report has been reviewed in relation to the functions of this section and feedback provided to the OPR ahead of the finalisation and publication by the OPR of the report at a later date.

Forward Planning

Longford County Development Plan 2021-2027

Work is underway on the review of the Longford County Development Plan 2021-2027, as part of the lead into the preparation of the new ten-year County Development Plan, to be prepared under the Planning and Development Act 2024 (as amended). To date Environmental consultants have been secured through the procurement process to undertake the Strategic Environmental Assessment (SEA), Appropriate Assessment (AA), and Strategic Flood Risk Assessment (SFRA) of the new County Development Plan.

The Forward Planning section has been informed by the Department that a commencement date will be given to them for the start date of the new plan. There is an indicative date of July 2026. As the preparation of the new plan will require a timeline in excess of two years, this will necessitate an extension to the existing Development Plan in order to ensure a Development Plan is in place at all times.

Planning Enforcement

The Planning Enforcement Section involves investigating complaints from the public regarding unauthorised developments and non-compliance with planning conditions attached to planning permissions.

In August 2026, five new cases were opened, one warning letter was issued, and two Enforcement Notices were served. There were two referrals for prosecution and three files closed.

In September 2026, eight new cases were opened, seven warning letters were issued, and three Enforcement Notices were served. There were two referrals for prosecution and two files closed.

A visit to Kildare County Council was undertaken in order to see the operation of the enforcement case management system in place. It is hoped to put a similar system in place in Longford County Council. Work in this area is currently underway.

Taking in Charge

Work has continued in August and September 2026 with EC Gearty's to carry out the final part of the taking in charge process where 63 estates are being registered in Longford County Council's name.

Development Management

Renewable Energy Development (RED III) Implementation

In Ireland, RED III was transposed into Irish planning legislation through the European Union (Planning and Development) (Renewable Energy) Regulations 2025 (S.I. No. 274 of 2025), with the majority of the provisions taking effect on 7 August 2025.

Since the implementation of RED III, this requires planning authorities to facilitate the timely assessment of renewable energy proposals through streamlined consenting procedures and statutory decision-making timelines.

For planning authorities, the key changes include:

- Mandatory decision timelines for certain renewable energy developments.
- A completeness check at the start of the application process to ensure all required information has been submitted.
- Greater emphasis on pre-application consultation to identify issues early.
- A requirement to treat renewable energy development as being in the overriding public interest, subject to environmental and legal considerations

To date Longford County Council has received four RED III applications, three have been granted by the planning Department well within the application deadlines, with the fourth application currently under assessment.

Planning and Development Act 2024

The enactment of the Planning and Development Act 2024, together with its phased commencement from October 2024 onwards, represents the most significant reform of Ireland's planning code in over two decades, introducing a modernised legislative framework aimed at improving consistency, efficiency and transparency in the planning system.

The commencement date for the remaining provisions of the 2024 Act will be Tuesday, 13 October, pushed on from the original date of September 30.

The provisions due to commence include:

- Part 4: Planning applications and planning permissions.
- Part 11: Enforcement provisions.
- Part 12: Appeal procedures and planning registers.
- Part 15: Compensation provisions.
- Part 10: Protected structures and conservation areas.
- Part 7: Housing supply and Part V provisions.

New provisions relating to Strategic Development Zones (SDZs) and Urban Development Zones (UDZs)

Development Management

The most significant change for day-to-day practice is the commencement of Part 4 (Development Management), which replaces much of the existing development management code under the Planning and Development Act 2000. This has led to a huge volume of work in preparation for the switchover including a complete overhaul of all planning correspondences, letters, templates and the iplan system. The website is also being updated to reflect these changes. The changes are still being implemented, and the planning department is satisfied they will be ready for the commencement date.

Planning and Development Regulations 2026

In conjunction with the above commencement of the 2024 Act, the Planning and Development Regulations 2026 have been published in draft form to support the final commencement of the Planning and Development Act 2024. The remaining operational provisions of the 2024 Act, together with the associated regulations, are expected to come into force on 13 October 2026, following a deferral from the previously anticipated date of 30 September 2026. Again, a large volume of work has been generated in preparation for the 2026 Regs, similar to the requirements associated with the 2024 Act and the planning department is satisfied they will be ready to proceed on the commencement date.
