Re: Residential Zoned Land Tax Submission

Folio Number

Dear Sir/Madam

I _____, refer to the Longford Leader dated Friday 26th January 2024 regarding the above. I would like to make a submission regarding my property listed on this map and plans.

The property I refer to is located at _____ and this property is part of my residential area, it is my recreational space also. This is to the rear of my home and it is my back garden attached to my house. It is not and never was a separate piece of land, it is residential property. The area of my property is less than 1 acre being a total of 0.38 hectares.

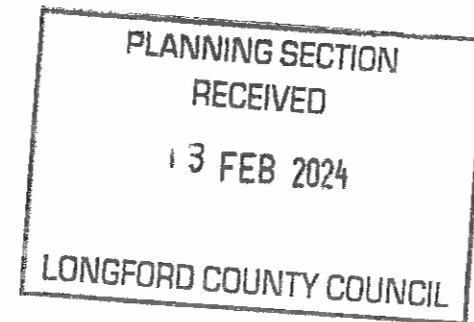

I myself am an outdoor person and enjoy nature and wildlife and the perfect place for me to do this is my back garden. My septic tank is located in the area marked red on the map. The criteria on the

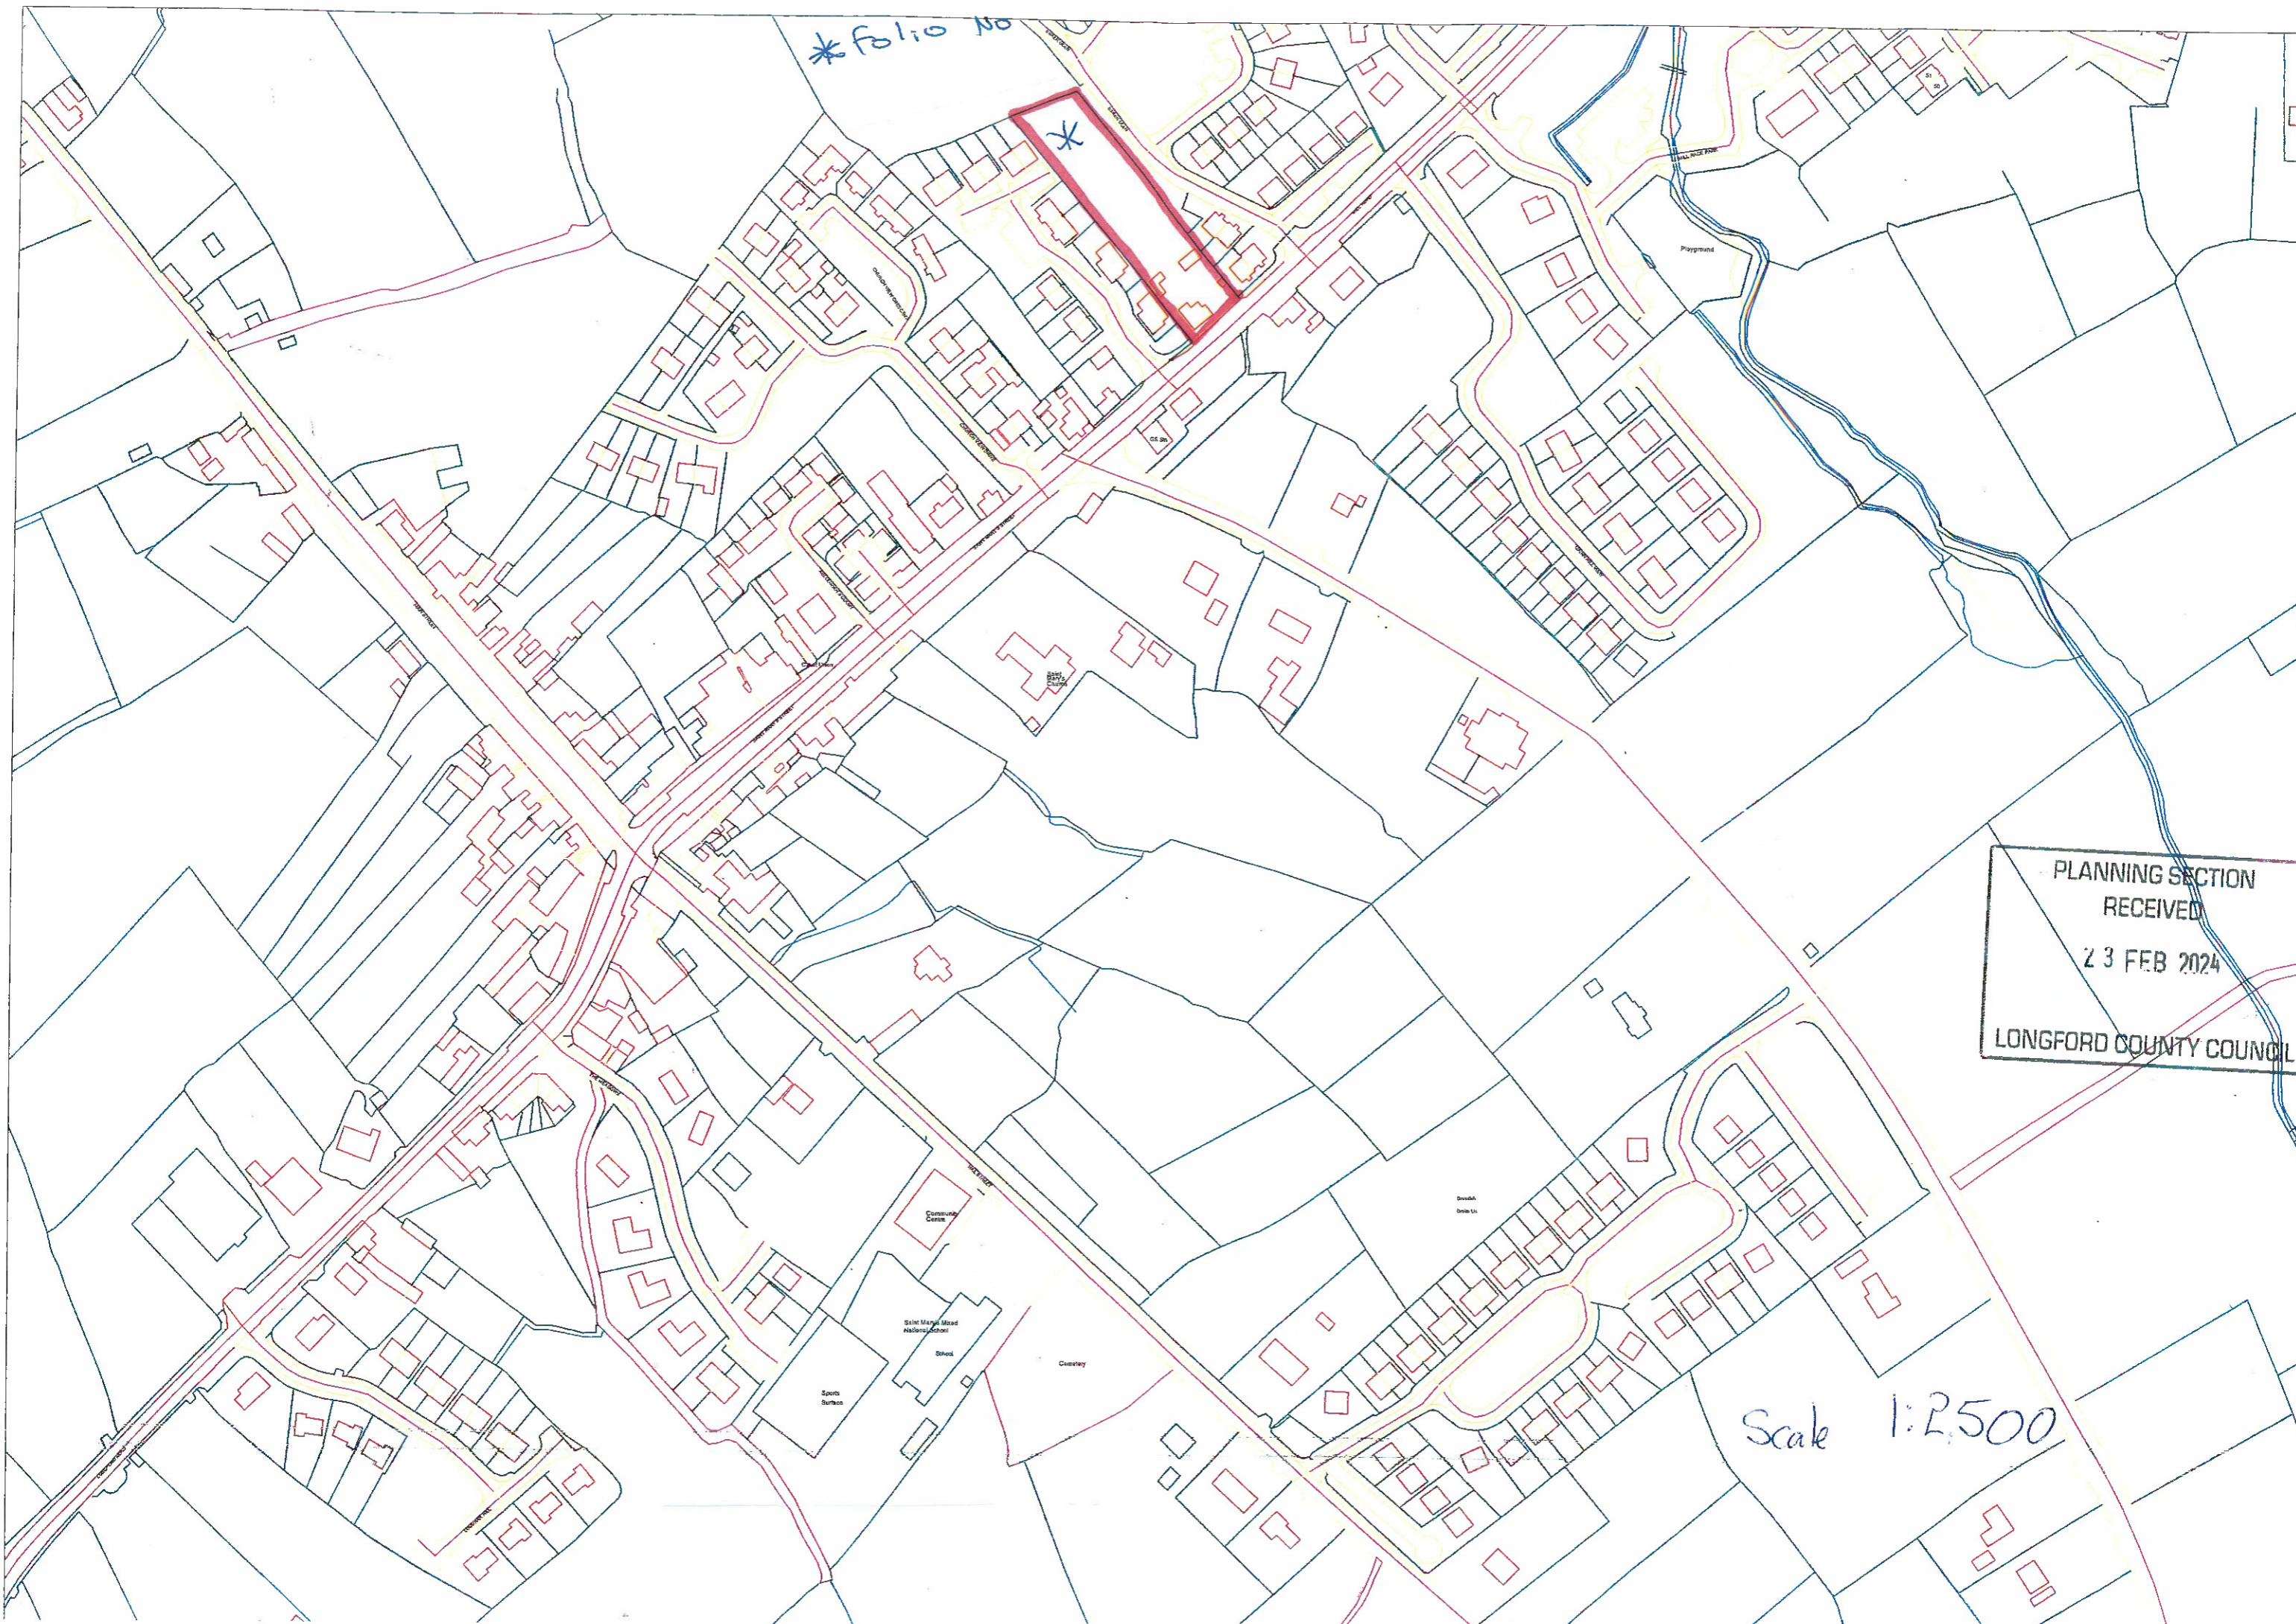

Longford County Council website regarding RZLT does not meet the challenge for the inclusion of my garden into the RZLT.

I would be grateful if this red zone which is my residential property would be removed from the map and left as my residential and recreational area.

I look forward to hearing from you.

Yours sincerely,
