To whom it may concern

We wish to make a submission to remove a part of land from the rzlt.

LDLA202202922

We believe this piece of lands falls out of the scope of the criteria stated in section 653B of The Taxes Consolidation Act 1997. This is because this land is physically affected as it is currently being actively farmed. It is a continuous piece of land which extends in a U shape. If this piece of land was used for housing then the farm would be broken up and access to the cattle crush and farmyard would be inaccessible from the rest of the land. This is a crucial part of the working farm.

We respectfully request this piece of land zoned for rzlt be removed.

This map should be read in conjunction with the title.

Registry maps are based on OSi topographic mappings. Where registry maps are printed at a scale that is larger than the OSi published scale, accuracy is limited to that of the original OSi map scale.

For details of the terms of use and limitations as to scale, accuracy and other conditions relating to Land Registry maps, see www.prsa.ie

The registry operates a non-conclusive boundary system. The Registry Map identifies properties and boundaries meaning neither the description of land in a register nor its identification by reference to a registry map is conclusive as to the boundaries or extent. (see Section 85 of the Registration of Title Act, 1964). As inserted by Section 82 of the Registration of Title (Amendment) Act 2006.
