The Elected Members considered and noted the Chief Executive's report on the planning application by Bord na Móna to An Coimisiún Pleanála, for the proposed development of 22 no. Wind Turbines and 1 no. 110kV Electrical Substation and all associated works.

Details of the proposed development, the Strategic Infrastructure Development (SID) process, obligations to consider in the assessment of the proposal, the role of the Elected Members and An Coimisiún Pleanála were outlined to the Members. Some Members spoke on the application while others asked for clarification on certain matters.

Councillors Mark Casey, Martin Skelly, Paul Ross and Sean Mimmagh raised some concerns regarding the application and the potential impact on the environment, residents and communities. Contributions included:

- Disappointment that Bord na Móna resubmitted the proposed development given the previous history on the site following a judicial review.
- Belief that the proposed development contradicts certain policies in the Longford County Development Plan.
- Concerns over health and safety, loss of peatlands for other uses, possible impact on wildlife and protected species and the potential impact on water quality.
- Visual impact of the proposed development on the landscape.
- Impact on the residents within the area and the proximity of the turbines to surrounding dwellings.
- Devaluation of properties in the area.
- View that the proposed development does not align with the ambition for tourism in the area.
- Reference made to the history of Bord Na Móna in the area and the expectation of communities as to the future use of the bogs.
- The proposed development was not considered to be in line with the ethos of the area.

Clarifications were sought by Councillors Garry Murtagh, Mark Casey and Paul Ross. These included:

- Is the proposed development in accordance with the policies of the Longford County Development Plan?
- Is there provision for a community benefit fund in the application?

- Is the duration of a ten-year permission for the proposed development normal?

The Planning Authority confirmed that:

- The proposed development is compliant with the policies of the Longford County Development Plan 2021 – 2027.
- The planning permission duration is for a period of ten years and is normal practice for a development of this nature.
- A community benefit fund has been proposed in the proposed application. The Chief Executive's report includes a recommendation to An Coimisiún Pleanála for the inclusion of a community benefit fund.

It was agreed that feedback from the Members would be included with the Chief Executive's report as presented to the Members.

### **(i) NOTICE OF MOTION**

**The following Notice of Motion was proposed by Councillor Paul Ross and seconded by Councillor Seamus Butler**

I call on Longford County Council to write to Failte Ireland, EMRA and our MEPs to seek an extension to the completion date for the EU Just Transition Fund of March 2026, due to the complexity of this grant and the delays in the process, applicants are finding it difficult to get finished in time. If applicants could have an extension this would ensure that the full funding would be drawn down and that the EU should recognise this fact.
