Introduction

Introduction by Longford County Council Chief Executive Paddy Mahon

On behalf of Longford County Council, I am very pleased to present the first Gender Pay Gap Report for the year 2022.

Longford County Council understands that the issue of gender pay differences is an important one, not only to our own workplace but to wider society and we welcomed the opportunity to prepare and review our performance in this regard.

Local authorities are at the forefront of delivering services to our citizens and Longford County Council remains committed to serving, representing, and leading our community to make County Longford a safe, vibrant and prosperous place to be.

Longford County Council has long recognised that people are at the core of our organisation, and we strive to promote and sustain an inclusive organisational culture that provides equality of opportunity and where every employee feels valued.

We are committed to addressing workplace barriers to equality, to supporting diversity and to creating an open and inclusive workplace community.

The gender pay gap figures for Longford County Council will inform future actions, it is important that we continue to monitor these trends and we look forward to next year's figures.

Paddy Mahon
Longford County Council Chief Executive

About Us

Local Government in Ireland

There are 31 local authorities and 3 regional assemblies in Ireland. Local authorities are the closest and most accessible form of government to citizens. They have responsibility for the delivery of a wide range of services in their local area, with a focus on making cities, towns, villages and the countryside attractive places in which to live, work and invest.

Local authority services make a significant contribution to the physical, cultural, social and environmental development of communities and include housing, planning, infrastructure, environmental protection and the provision of amenities and recreation and community infrastructure.

Local authorities play a key role in promoting social inclusion and quality of life and supporting economic development and enterprise at a local level. Local authorities take the lead role in shaping the strategic vision of the county or city. They also work in partnership with other state, public and private bodies in the delivery of critical infrastructure and shared services.

Local authorities deliver hundreds of services and implement policy across a range of areas including:

- Arts and culture
- Climate action
- Community services
- Economic development
- Environment
- Housing
- Libraries
- Parks and open spaces
- Planning
- Roads and transport
- Tourism

Local authority employees come from a wide range of backgrounds with diverse skill sets, qualifications and experience. Roles in the sector include:

- Accountants
- Administrators
- Apprenticeships
- Information technology
- Architects
- Archivists
- Conservation officers
- Engineers
- Fire Services
- General service and tradespeople
- Graduates
- Health and safety
- Archaeologists
- Library services
- Planners
- Senior management roles
- Technicians

Working for Longford County Council gives our employees the opportunity to gain experience at the heart of local government and to make a real difference for

County Longford. Everything we do in Longford County Council is geared towards making County Longford a great place to live and work and our employees play a vital role in that ambition.

Longford County Council

Centrally and strategically located in the midlands, County Longford is a hidden gem renowned for its rich culture, heritage and natural amenities. It is a special place with fascinating history, beautiful waterways, diverse landscapes and offers visitors an authentic experience. Longford is ideally placed to attract investment with very accessible with road and rail links. The county has a rich economic legacy in areas of agriculture, manufacturing, engineering, pharma and med-tech. Our people are enterprising, welcoming, friendly and enthusiastic to see the county progress.

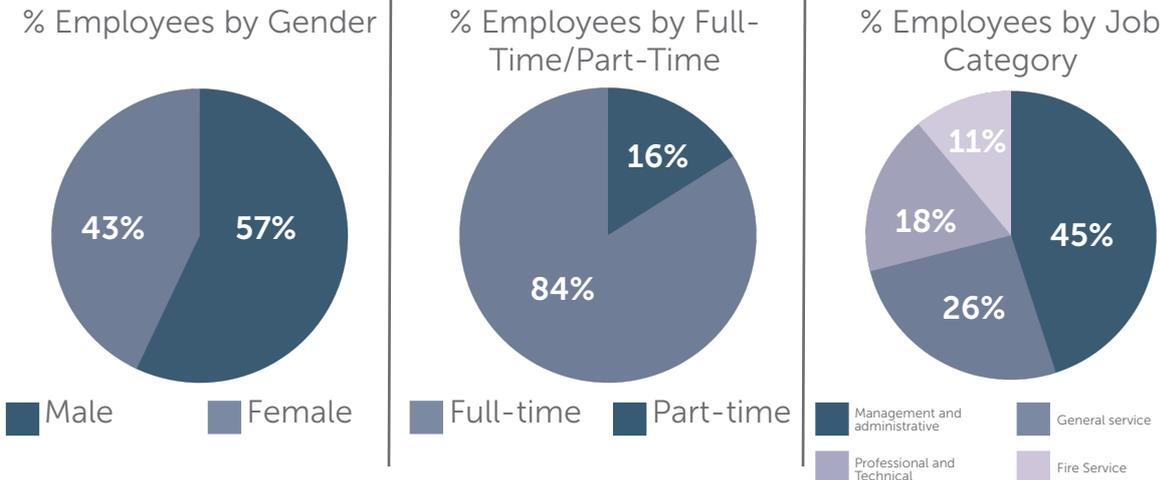

The county has a growing population with Longford Town, the county town, accounting for approximately one fifth of the county’s population.

Longford Town is the administrative centre for Longford County Council which employs a workforce of approximately 393 employees.

As an organisation, Longford County Council seeks to enhance the county’s attraction as a place in which to invest, work, and live, and takes the lead role in shaping the strategic vision of the county. We provide a diverse, multi-layered and evolving range of services to both citizens and visitors to County Longford, which include the provision of housing, planning, development, environmental, roads, traffic, leisure and an array of community services.

Longford County Council is a dynamic and progressive local authority which promotes training and development of our employees - our most valuable resource.

Gender Pay Gap Reporting

Gender Pay Gap Reporting 2022

The Gender Pay Gap Information Act, 2021 requires organisations with over 250 employees to report on their Gender Pay Gap. 2022 is the first year that organisations will have to report on their Gender Pay Gap. Organisations are asked to select a 'snapshot' date in the month of June. For all local authorities, the snapshot date is 30 June 2022.

Organisations have six months to prepare their calculations, before reporting six months later during December 2022. The information must be published on the employer's website or in some other way that is accessible to all its employees and to the public.

Who is included?

All persons employed by the employer on the snapshot date, including employees not rostered to work on that date and employees on leave. The mean and median figures must also be given separately for part-time and temporary employees.

What do we mean by the gender pay gap?

The Gender Pay Gap calculates the percentage difference between the average earnings of males and females irrespective of their role.

The Gender Pay Gap is not the same as equal pay. Employment Equality legislation provides for equal pay for like work. All male and female employees in the local government sector are paid equally for work that is the same or similar or for work of equal value, therefore this report does not examine equal pay. Rates of pay within the sector are agreed through national wage agreements negotiated regularly between employers and staff representatives.

Most employees are paid according to an incremental salary scale and the salary ranges for various roles are available on the local government jobs website at www.localgovernmentjobs.ie

Mean and Median Gender Pay Gap

The Gender Pay Gap is calculated, using the following measures:

Mean Gender Pay Gap

This shows the % difference between the average hourly rate of pay for males and average hourly rate of pay for females.

$$\frac{(\text{average male hourly rate}) - (\text{average female hourly rate})}{\text{average male hourly rate}} \times 100$$

Median Gender Pay Gap

This shows the % difference between the median hourly rate of pay for males and median hourly rate of pay for females.

$$\frac{(\text{median of male hourly rates}) - (\text{median of female hourly rates})}{\text{Median of male hourly rates}} \times 100$$

The **mean** is the average. It is calculated by getting the difference between the average hourly rate of pay for males and the average hourly rate of pay for females (male hourly rate minus female hourly rate), expressed as a percentage of the male hourly rate. If this figure is negative, the average hourly rate of females is higher than the average hourly rate of males on the snapshot date. If this figure is positive, the average hourly rate of males is higher than the average hourly rate of females on the snapshot date.

The **median** is the figure that falls in the middle of a range where the salary of all relevant employees is listed, from the lowest to the highest. This can provide a more accurate representation of the 'typical' differences in pay.

It is useful to look at both the mean and median figures, as each one can tell us something different about the underlying factors affecting the pay gap.

For example, a small number of higher paid employees can impact the mean figure and if this is the case, the median figure may be more representative of difference between what a male and a female is paid.

If there is a significant difference between an organisation's mean and median pay gap, this may indicate that the data is impacted either by the presence of low earners (making the mean lower than the median) or by a group of higher earners (making the mean higher than the median).

It is also important to remember that this report uses data on a snapshot date in June. Gender pay gaps can fluctuate from month to month and across quartile pay bands, depending on changes to headcount. However, headline figures will give a good indication of the differences between average earning between males and females.

Quartile Pay Bands

Dividing employees into four more-or-less equal groups (or quartiles) with pay graded from lowest to highest helps us to examine pay across different levels of the organisation.

Organisations must report on the percentage of employees who fall within the lower, lower middle, upper middle and upper quartile hourly pay bands.

In order to group employees into these Quartile Pay Bands, the organisation lists all employees from lowest to highest, based on their hourly rates. The employees are then divided into four equal groups or Quartiles, as follows:

- lower
- lower middle
- upper middle
- upper

The employer then shows the proportion of male and female employees in each quartile as a percentage, e.g. percentage of male employees in the lower quartile and percentage of female employees in the lower quartile (and so on).

Bonus and Benefit-in-Kind

Figures must also be provided for bonus payments or benefit-in-kind payments if these apply. Bonus payments do not apply within the local government sector. Benefit-in-kind may arise in certain circumstances, e.g. where some professional fees are paid by the employer.

Factors that can have an Impact on the Gender Pay Gap

As mentioned, this report does not look at equal pay. Every employee, regardless of gender is paid equally for work that is the same or similar or for work of equal value. However, differences between what employees are paid can be impacted by a number of complex factors including:

- Occupational segregation – some job categories or occupations may have traditionally attracted more females than males or vice versa.
- Working patterns – full-time and part-time work. It may be that more females than males seek part-time work or career breaks and although this does not impact on their hourly rate of pay, it may impact on choices around career progression.
- Length of service – incremental pay increases may mean that new joiners are paid less than more experienced employees.
- Time of year – temporary or seasonal workers may be recruited for different roles which may attract a different rate of pay.
- Gender breakdown of senior roles at higher salaries – a small number of higher paid employees can affect the average figures.
- Gender breakdown of lower paid roles – a large number of lower paid employees can affect the average figures.

If an organisation reports a positive gender pay gap, it does not mean that females are paid less than males for doing the same job, but it does show that, on average, males occupy higher paid roles than females.

If an organisation reports a negative gender pay gap, it does not mean that males are paid less than females for doing the same job, but it does indicate that, on average, females occupy higher paid roles than males.

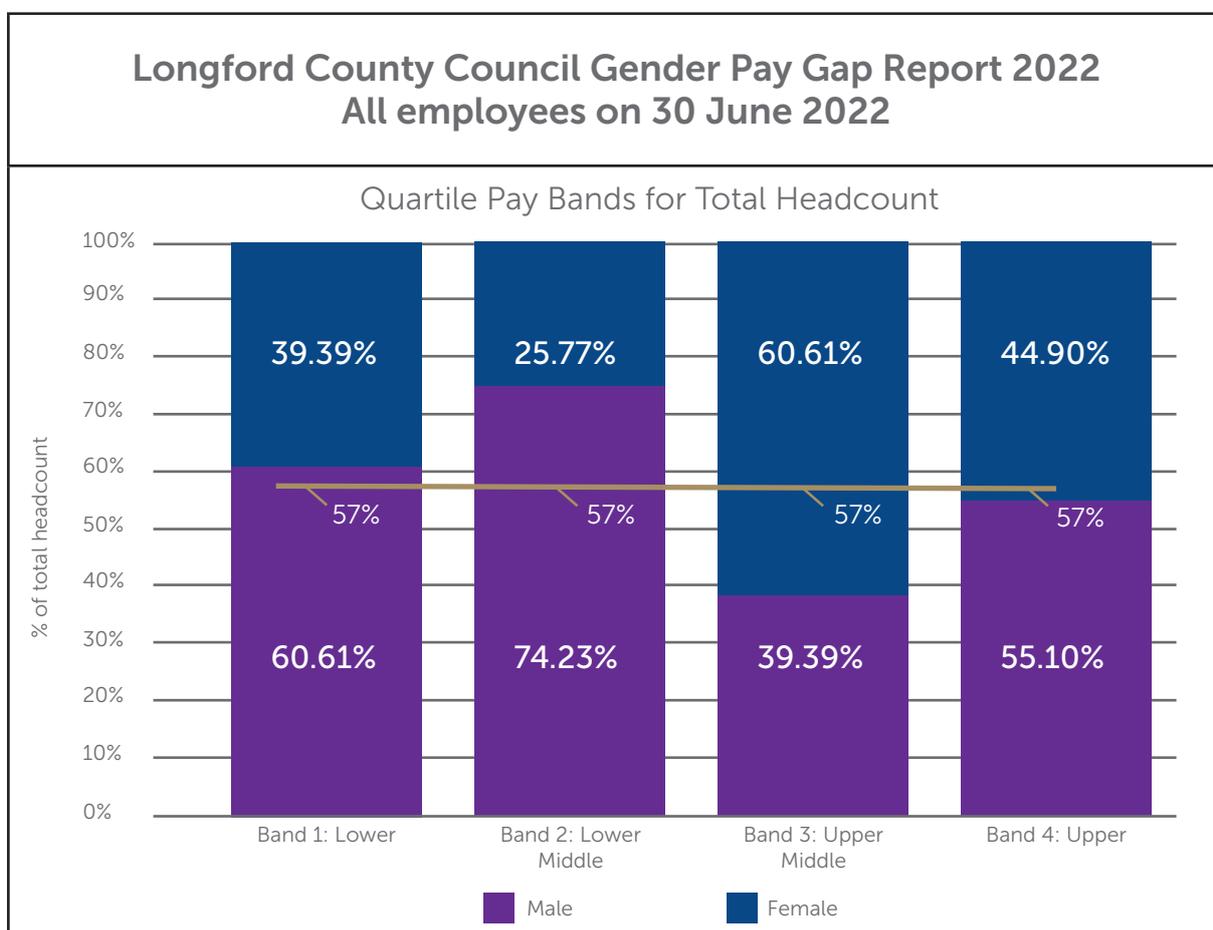

The larger the positive or negative pay gap is, the more marked the differences in hourly rates of pay will be and the more males or females proportionally working in either higher or lower paid roles within the organisation.

Our Figures

Mean and Median Gender Pay Gap and Pay Band Quartiles – All Employees

Longford County Council Gender Pay Gap Report 2022 All employees on 30 June 2022	
Mean Gender Pay Gap	Median Gender Pay Gap
2.08%	-10.14%

The **Mean Gender Pay Gap** shows that on average, females are paid 2.08% less than males. The **Median Gender Pay Gap** shows that the median rate of pay for females is 10.14% more than the median rate of pay for males.

The gender breakdown of all Longford County Council employees on the 30 June 2022 is **57% male** and **43% female**, this is shown in the dotted line in the previous graph.

Looking at the distribution of employees across the four **Quartile Pay Bands** helps us examine pay at different levels of the organisation.

These Quartile Pay Bands show the distribution of male and female employees by Pay Band across the organisation (the organisation lists all employees from lowest to highest, based on their hourly rates, then divides this into four equal Pay Bands or Quartiles - lower, lower middle, upper middle and upper. The employer then shows the proportion of male and female employees in each quartile).

The split for each of the 4 quartiles shown above is broadly in line with our workforce demographics of 57% male and 43% female. For there to be no Gender Pay Gap you would expect to see the workforce demographics reflected more closely in each quartile.

There is a higher proportion of males in Band 1, reflecting that there are proportionately more males at lower grades. There is also a slightly higher proportion of males in the Band 4, reflecting that there are proportionately more males in higher grades, however the 55% male and 45% female gender breakdown in senior grades is to be welcomed and reflects progress on gender balance in senior roles. Both more males at lower grades and fewer females at higher grades can affect the mean and median pay gaps.

Mean and Median Gender Pay Gap – Part-Time Employees

Longford County Council Gender Pay Gap Report 2022 Part-time employees on 30 June 2022	
Mean Gender Pay Gap	Median Gender Pay Gap
-13.2%	-9.8%

Approximately 16% of all our employees on 30 June 2022 were working part-time. Of these, 73% are male and 27% are female.

A key factor of the figures given above is the fire service, where part-time work is an occupational feature, this is also true of certain roles in the library service.

Other factors influencing the pattern of part-time employees across the organisation include a range of flexible work options for part-time work, which, while available to all employees, have a greater take-up in the administrative and clerical job categories.

Mean and Median Gender Pay Gap – Temporary Employees

Longford County Council Gender Pay Gap Report 2022 Temporary employees on 30 June 2022	
Mean Gender Pay Gap	Median Gender Pay Gap
5.9%	-20.35%

On 30 June 2022, 3% of our employees were employed on temporary contracts. Of these, 55% are male and 45% are female.

These temporary contracts include graduates, clerical officers, general operatives, machinery operators as well as employees working in community posts involved with safety, sports and health partnerships.

Other Payments

Benefit-in-Kind

In 2022, 0% of our employees were in receipt of a benefit-in-kind payment.

Bonus Payments

Bonus payments do not feature as part of pay in the local government sector.

How we are Supporting Gender Equality

In line with the Gender Pay Gap Information Act 2021, 2022 is the first year that Longford County Council has reported on the gender pay gap, but equality, diversity and inclusion continues to be part of the way we work.

Fair and Transparent Recruitment Practices

- As an equal opportunities employer, we work to promote a culture of equality and we strive to embrace genuine equality of opportunity through our recruitment and selection process which are open to all.
- We provide appropriate assistance and accommodation throughout our recruitment and selection process, including providing easily accessible interview facilities, agreeing an appropriately timed interview, and supplying or arranging appropriate equipment.
- All our Interview Board are gender balanced and all Interview Boards receive training, including unconscious bias training
- Recruitment websites highlight family friendly and flexible working options, and our job descriptions and job advertisements are gender neutral.
- We provide training and support, open to all employees to help them prepare for job applications and interviews.
- Employees are paid according to an incremental salary scale, and we offer strong career progression opportunities which are open to all employees.

Work-Life Balance

- We offer a wide range of flexible working and leave options which are available to all employees, including carer's leave, career breaks, paid maternity and adoptive leave, paid paternity leave, parent's leave, parental leave, shorter working year schemes, work-sharing.

Blended Working

- Blended working is now a part of our flexible working policies with flexible options to combine office and home working.
- We provide access to the Cycle to Work Scheme and the Tax Saver Scheme, to reduce commuting costs.

Learning and Development

- We are committed to providing ongoing learning and development opportunities so that all employees can develop to their full potential. All employees are actively encouraged to pursue education opportunities through the Open Learning education assistance Scheme, with study and examination leave also available.

Health and Wellbeing

- The health and wellbeing of all employees is paramount, and a healthy work-life balance is important to us. We offer a comprehensive employee occupational health and wellbeing programme including an Employee Assistance Programme, health screening, health and nutrition advice and wellbeing webinars, etc.

Dignity at Work

- We promote and support a culture of dignity, respect and equality. We have a Dignity at Work Policy and provide training and support to employees.

Equality, Diversity and Inclusion

- We are continually developing as an employer of choice to attract, develop and promote an inclusive and diverse employee population.
- We continue to design and provide responsive services and customer care that meet the needs of an increasingly diverse customer base.
- Human rights and equality statement has been incorporated into the Council's corporate plans and strategic plans

Public Sector Duty

- We progressively embed the Public Sector Duty in its current management, policy development and service delivery processes.
- The Public Sector Duty is set out in Section 42 of the Irish Human Rights and Equality Commission Act, 2014. Section 42 requires a public body, in the performance of its functions, to have regard to the need to eliminate discrimination, promote equality of opportunity and treatment of its staff and the persons to whom it provides services and protect human rights of its

members, staff and the persons to whom it provides services.

- Public bodies are required to set out in a manner that is accessible to the public in its strategic plan an assessment of the human rights and equality issues it believes to be relevant to its functions and purpose and the existing or proposed policies, plans and actions to address those issues. Furthermore, public bodies are required to report annually on developments and achievements in that regard in its annual report in a manner that is accessible to the public.
- We acknowledge the commonality of purpose stated in both the Public Sector Duty and Gender Pay Gap reporting requirements and the publication of this report serves to underline and support the three-step approach advocated by the IHREC i.e., Assess, Address and Report.

Women in Leadership

- Our Senior Management Team comprises the following gender balance 50% Male and 50% Female and we continue to deliver Women in Leadership programmes.

Data Collection and Evidence-Based Policy Development

We welcome the opportunity to report on our gender pay gap and have worked collaboratively across the sector to provide a standard and consistent approach to reporting. We will work with the LGMA and our colleagues in other local authorities to share learnings and best practice programmes.
